Re: Public Corruption/Retaliation/Obstruction of Justice

Dear Chairman Patrick Leahy,

I am providing you, your staff and committee with direct notice and knowledge of the public corruption, obstruction of justice and continued interference, threats and retaliation toward my family and I.

Several of your committee members already have notice of this misconduct and on July 22nd 2009 an FBI field agent threatened my life for making a FOIA request regarding my 8-year "Healthcare Reform" litigation. The Department of Justice, The FBI, The Missouri Board of Governors and my local Law Enforcement have participated in this misconduct and it continues to this day. My Internet connections, emails and phone communications continue to be interfered with, which eliminates my ability to generate business, raise capital, help reform healthcare and make a living.

Will you see that the public officials and agencies responsible for this misconduct and continued retaliation are held accountable? Mr. Holder and Mr. Mueller have obviously ignored my previous requests for help or they have no control over their respective departments and agencies. Thank you for your attention to these matters.

Sincerely, Samuel K. Lipari
